

Local Tiny Nation Nanny Profile

Gabriella

Glenfield, North Shore, Auckland

About Me

I'm a well-organised, reliable and responsible person with a passion for working with and providing excellent care for children, as demonstrated by my thirty years of experience. I was trained as a primary school teacher and a professional rehabilitation specialist, I also obtained a special needs teacher qualifications in the past.

Since 2007, I have been working as a professional childcare provider/nanny. I consider myself to be well-trained, knowledgeable and experienced in the field of child-psychology and early childhood education, from babyhood to primary school age. I bring love, fun and joy to the life of my little charges and put emphasis on teaching politeness and good manners. I believe preschool age children learn from play activities and role models.

I believe in maintaining a good relationship and open communication with parents. I have developed competent problem-solving and multitasking skills. I'm able to work independently and show commitment to perform at a high quality level.

My Philosophy

Life would be more beautiful on Earth if adults could look at the world through the eyes and with the heart of a child.

My approach to early childhood education is holistic, I believe every aspect of a child's development is equally important. Every child deserves to be treated with love, understanding, patience and compassion; and as an individual and cherished member of our world. Every child is unique and possesses his or her own personality from the beginning, hence needs to be treated accordingly. By nature children are very eager to explore their environment, learn new things and accept new ideas, so the caregiver's positive and constructive influence is crucial in their development. I am always inspired by and value every child's uniqueness, individuality, openness, imaginary, curiosity, loveliness, innocence and goodness.

My Service

I assist and support children's development and develop confidence and competence. We attend community learning programs and I organise regular outings. I provide age appropriate learning opportunities, including arts and crafts. Provide an inclusive daily structure and child related food preparation and housekeeping.

My Training

I have the following qualifications: Conductor (rehabilitation specialist of the physically disabled) - Primary School Teacher, and Special Needs Teacher - specialised in oligophrenic pedagogy (pedagogy of the intellectually disabled). I also have a current first-aid certificate.

My Availability

Available for a full time, sole charge position, preferably four full days, but I can be flexible.
